Abstract

Research The Life Quality Of Lao Labors In Bangkok And Vicinity has 3 main objectives: 1) to study the quality of life of workers in Laos in the Bangkok Metropolitan Region 2) to analyze the factors that affect the quality of life of Lao migrants in Bangkok and surrounding provinces and. 3) to study the problems of quality of life of workers in Bangkok, Laos. Metropolitan the period from 6 months up to a total of 20 was used in the research were interviewed about the quality of life of workers in Laos, the researchers created yourself. Through the quality of the tool, 5 experts to obtain more comprehensive information.

The results showed that

Quality of life of Lao migrants actually quite good in terms of the environment, health, housing, social welfare and income. The progressive/skills. Labor and are satisfied with their job done. And income earned from work. Workers were not sick in the last 6 months. The improvement is to get a health check at least 1 time per year and raises the quality of life for the better labor. Public sector come to take care the workers to more supervise, Adding enforcement of the law in various matters, including employment, wages, welfare, Conditions of work Skill development and employment for the workers. Entrepreneurs need to be attentive to the development of skill and attention to improving the quality of life of the workers.

Factors affecting the quality of life of Lao workers found that they are of compensation, Economic and social. They went to work in Bangkok and surrounding provinces of Lao migrants make labor and income to meet basic needs and facilities, such as mobile TV, fan, electric rice cooker. And other appliances, and also have the money sent home for parents to spend as well.

Barriers that affect the quality of life of Lao migrants found that education, workers have studied the basic level caused the lack of work experience, it may be difficult to work in the beginning, and time-consuming to learn. Welfare benefits, some do not get sick from work on medical leave. And some wages are paid on time without requiring the revenue they do not enough to solve the problem, they have to borrow them from friends and colleagues.
